

## **Zultys & Broadvox Make SIP the Right Choice for Connectivity**

*Zultys IP PBX successfully completes interoperability testing with Broadvox's nationwide SIP Trunks*

**Sunnyvale, Calif. – July 21, 2009** – Zultys and Broadvox today announced interoperability certification between the Zultys MX family of IP PBX communication systems and Broadvox GO! SIP Trunking to provide feature-rich Unified Communications services to small and medium businesses and enterprises, while saving them money and providing high-quality, reliable voice services.

Broadvox, a VoIP innovator since 2001, provides SIP (Session Initiation Protocol) trunking services to Small and Medium Business and Enterprises as well as many Carriers. As well as the “SMBs SIP solution” with their Broadvox GO! SIP Trunking offering, the pre-tested interoperability of Zultys’ PBX products and Broadvox VoIP network enables businesses to deploy customized Unified Communications solutions and achieve the full benefits and cost-savings of business VoIP. Broadvox’s nationwide network coverage delivers multi-site customers with the benefit of a single coast-to-coast trusted SIP provider.

Zultys’ eight years of experience producing pure SIP IP-PBX products, combined with Broadvox’s dedication and commitment to the IP voice network benefits customers by reducing costs while increasing productivity.

“Zultys’ pure SIP PBX servers are a natural fit for our network of SIP services. We’re excited to be working with Zultys as together we can advance the achievements of SIP,” said David Byrd, VP of Marketing and Sales for Broadvox. “We deliver connectivity; Zultys delivers industry-leading communication solutions on this connectivity.”

“It’s great to work with Broadvox, a highly respected nationwide ITSP, as we enable customers and resellers to achieve true collaboration and communications solutions that up until recently were not possible without the SIP connectivity we bring to the marketplace,” said Steve Morrison, VP of Product Management at Zultys.

The Zultys family of advanced SIP Open Standards-based [IP-PBX products](#) offer enterprises and small and medium businesses a feature-rich energy-efficient server that does more in one box than any other IP PBX on the market. The [MX250 IP PBX](#) and [MX30 IP PBX](#) servers function as full PSTN/IP gateways and are loaded with business-enhancing features right out of the box, such as Soft Phone, Find-me/Follow-me, Presence, Secure Chat, Teleworker support, SIP open standard desktop and cordless phones, and much, much more.

### **About Broadvox**

Founded in 2001, Broadvox is a worldwide leader in providing integrated managed VoIP services to SMBs, enterprises and carriers. It has deployed one of the largest, full-featured global VoIP networks and is trusted by more than 200 telecommunications carriers, CLECs, ISPs and several thousand enterprises to terminate and originate over eight billion minutes annually. The Broadvox network operations center provides the reliability, security and quality of service required by the world’s most discriminating customers. Broadvox offers SIP Trunking, SIP origination and termination services and hosted communications solutions. Broadvox is headquartered in Dallas, Texas.
